Paper 1 Theory May/June 2021

2 hours

You must answer on the question paper.

No additional materials are needed.

INSTRUCTIONS

- Answer all questions.
- Use a black or dark blue pen.
- Write your name, centre number and candidate number in the boxes at the top of the page.
- Write your answer to each question in the space provided.
- Do not use an erasable pen or correction fluid.
- Do **not** write on any bar codes.
- You may use an HB pencil for any diagrams, graphs or rough working.

INFORMATION

- The total mark for this paper is 100.
- The number of marks for each question or part question is shown in brackets [].
- No marks will be awarded for using brand names of software packages or hardware.

This document has 16 pages.

1	Tick (1/	whether the	following are	examples of	personal data	
•				CAULIDICS OF	DCIDOIIAI GALA	

	Yes (✓)	No (✓)
Full name		
Capital of England		
Gender		
Number of flowers in a garden		

[2

2 Circle **two** input devices that could be used in a smartphone.

HDD	magnetic stripe reader	microphone	mouse
remote control	speaker	touchpad	touch screen

[2]

3 Describe **four** characteristics of a tablet computer.

10 Tick (✓) the most appropriate method of implementation to match the statements below.

	Direct (√)	Parallel (✓)	Pilot (✓)
All of the benefits are immediate.			
If the new system fails the whole of the old system is still operational.			
This is the cheapest implementation method.			
The system is implemented in one branch of the company.			

[4] Data stored on a computer system is at risk of being hacked. (a) Explain what is meant by the term hacking. Include in your answer two examples of the effects this can have on the computer system. [3] (b) Describe three measures that could be taken to protect the data from being hacked.

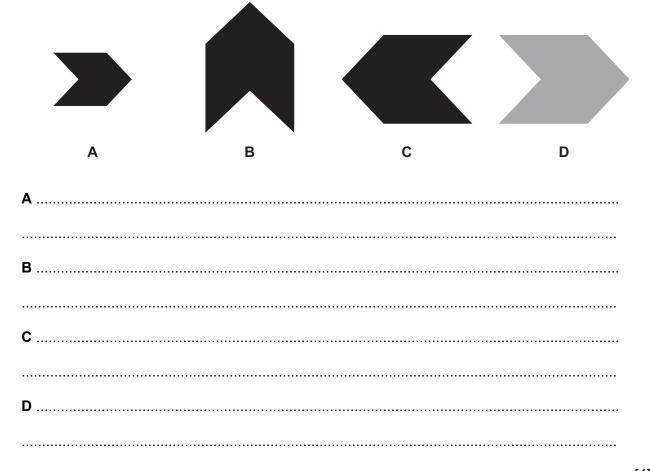

12 An image has been changed in a number of different ways.

Original image

For each of the following images describe the software editing technique used in order to produce the edited images shown from the original image.

Edited images

13 RockIT Airlines representatives use a computer booking system to book flights for customers.

A representative from the airline types in the customer reference number, the number of passengers, departure time, departure date, departure airport and the destination airport.

A customer is planning to take a flight from London Heathrow Airport. The representative types in a code LHR for London Heathrow Airport. One of the reasons for using a code for the airport is to improve data accuracy.

(a)	Describe two other advantages of using a code rather than typing out the full name.	
	1	
	2	
		[2]
(b)	Describe the importance of data accuracy when making a booking.	
		[2]

(c)	Describe the processing and outputs involved in making the booking.	
		[6]

Question 14 starts on page 16.

14 A road through a village has a speed limit of 45 kilometres per hour. The police are checking and recording the speed of vehicles passing through the village using measuring hardware and software,

so they can produce a report of their findings.				
(a)	Explain the difference between measurement and control when using microprocessors.			
		[2]		
(b)	Describe the role of the microprocessor in this scenario.			
		[4]		

Permission to reproduce items where third-party owned material protected by copyright is included has been sought and cleared where possible. Every reasonable effort has been made by the publisher (UCLES) to trace copyright holders, but if any items requiring clearance have unwittingly been included, the publisher will be pleased to make amends at the earliest possible opportunity.

To avoid the issue of disclosure of answer-related information to candidates, all copyright acknowledgements are reproduced online in the Cambridge Assessment International Education Copyright Acknowledgements Booklet. This is produced for each series of examinations and is freely available to download at www.cambridgeinternational.org after the live examination series.

Cambridge Assessment International Education is part of the Cambridge Assessment Group. Cambridge Assessment is the brand name of the University of Cambridge Local Examinations Syndicate (UCLES), which itself is a department of the University of Cambridge.
