MARK SCHEME

Maximum Mark: 60

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the March 2020 series for most Cambridge IGCSE™, Cambridge International A and AS Level components and some Cambridge O Level components.

This document consists of **94** printed pages.

Generic Marking Principles

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

GENERAL INSTRUCTIONS

Applying the Mark Scheme

- When marking a response the overall criteria to be considered should be – ‘How good is this response to this question?’
- The ‘Level Descriptor’ should be used to decide the Level into which the quality of the answer fits.
- Exhaustive lists of possible facts are not given in the mark scheme, as there is often a choice of factual knowledge that candidates may use.
- **WHERE EXAMPLES OF RESPONSES ARE GIVEN, THESE ARE NOT PRESCRIPTIVE, BUT ARE INTENDED AS A GUIDE.** It is not possible to cover every possible type of response within a levels of response mark scheme and examiners are expected to use their professional judgement at all times in ensuring that responses are placed in the correct levels and given an appropriate mark within that level. If you cannot resolve the issue, please contact your team leader.
- Marking must be positive. Marks must not be deducted for inaccurate or irrelevant parts of answers. In itself, poor use of historical terminology, spelling, grammar or handwriting does not affect the mark. The overall quality of the answer to the question should be judged.
- If a candidate reaches a particular level s/he must be rewarded with a mark within that level. It is not necessary to work through the levels.
- The full range of marks should be used. Do not be afraid to award full marks or no marks. Failure to do this will seriously affect the distribution of marks. Be prepared to reward candidates who show any level of understanding. The mark scheme starts from basic acceptable response. Where a band of marks is indicated for a level these marks should be used with reference to the development of the answer within that level.

1(b)	Why was Mazzini important to the cause of Italian unification?	6	
	Level 4 Explains TWO reasons		6
	Level 3 Explains ONE reason 4–5 (Four marks for one explanation, five marks for full explanation) e.g. ‘Mazzini’s main importance was to inspire other people with his ideas about Italian unification. He provided the ideas behind the Risorgimento. His vision of Italy as one nation had an impact on people like Garibaldi who joined Mazzini’s Young Italy movement when he was young. Mazzini influenced them with the idea that Italy could not depend on other countries. It would have to win independence and unity by itself. He was a hothead and not very practical, but for thirty years he inspired generations of revolutionaries.’		
	Level 2 Identifies AND / OR describes reasons 2–3 (One mark for each identification/description) e.g. ‘Mazzini was a member of the Carbonari, a secret society.’ ‘He founded Young Italy to promote Italian unification.’ ‘He led several uprisings in support of Italian unification.’ ‘He was the main leader of the Roman Republic in 1849.’ ‘In 1856 he led a series of uprisings in Genoa.’ ‘He put together important ideas about the aim of creating a republican, free, united Italy.’ ‘He formulated the ideas behind the Risorgimento.’

1(c)	<p>Which was more important in achieving Italian unification, Cavour’s diplomacy or Garibaldi’s actions? Explain your answer.</p> <p>Level 5 Explains with evaluation of ‘which was more important’</p> <p>As Level 4 plus evaluation.</p> <p>Level 4 Explanation of both sides</p> <p>A L4 answer will have a minimum of three explanations (2 on one side; 1 on the other.) This will be worth a mark of 7. Fuller explanation of one issue to be given two marks. An answer which only has one explanation on one side of the argument cannot be awarded more than 8.</p> <p>Level 3 One sided explanation OR one explanation of both sides 5–6 marks</p> <p>More detailed explanation of one issue to be given two marks.</p> <p>e.g. ‘I think that Garibaldi’s actions were far more important. The crucial development in the achievement of unification was the winning of southern Italy by Garibaldi. His expedition of the Thousand conquered the Kingdom of Naples, first Sicily and then the mainland. He then handed all this over to Piedmont to be an important part of a united Italy under Victor Emmanuel. Without Garibaldi doing this there was no way that Cavour and Piedmont would have taken over southern Italy. Cavour was quite happy for Piedmont to control northern Italy, not lead a united Italy.’</p> <p>OR</p> <p>e.g. ‘The decisive development in the process of Italian Unification was Cavour’s diplomacy which led to France fighting alongside Piedmont against Austria in 1859. He involved Piedmont in the Crimean War so that he was involved in the peace talks in 1856. This let him develop close relations with Napoleon III of France. The result was that in 1858 Napoleon invited him to talks at Plombieres where they agreed to provoke Austria into war. This war, with vital French help, led to Piedmont winning control of Lombardy, Tuscany, Parma, Modena and much of the Papal States. This was a major step towards a united Italy under Piedmont and had been achieved by Cavour’s diplomacy. All that was required after this was control of the South. But Cavour had done most of the work.’</p>	<p>10</p> <p>10</p> <p>7–9</p> <p>4–6</p>

2(b)	Why did William I appoint Bismarck as Minister President in 1862?	6	
	Level 4 Explains TWO reasons		6
	Level 3 Explains ONE reason (Four marks for one explanation, five marks for full explanation) e.g. ‘William I wanted to reform the army, which was his main interest. However, in 1862 the liberals gained control of the National Assembly. This meant that they controlled the money and they refused to vote for taxes for William’s reforms. Deadlock was reached and William did not know what to do. His last option was to appoint Bismarck to handle the crisis and deal with the problem.’		4–5
	Level 2 Identifies AND / OR describes reasons (One mark for each identification/description) e.g. ‘He appointed him because he could not get his budget through Parliament.’ ‘William thought Bismarck would help him increase the size of the Prussian army.’ ‘William thought Bismarck would help him get his army reforms through.’ ‘William thought Bismarck would help him deal with the liberal National Assembly who were causing him trouble.’ ‘Roon, the Minister of War, advised William to appoint Bismarck.’ ‘He wanted to keep the Junker elite in charge of the Prussian army and he thought Bismarck would help him.’		2–3

2(c)	<p>Which was more responsible for Prussia’s emergence as the dominant German power by 1866, Prussian strength or Austrian weakness? Explain your answer.</p>	10
<p>Level 5 Explains with evaluation of ‘which was more responsible’</p> <p>As Level 4 plus evaluation.</p>	10	
<p>Level 4 Explanation of both sides</p> <p>A L4 answer will have a minimum of three explanations (2 on one side; 1 on the other.) This will be worth a mark of 7. Fuller explanation of one issue to be given two marks. An answer which only has one explanation on one side of the argument cannot be awarded more than 8.</p>	7–9	
<p>Level 3 One sided explanation OR one explanation of both sides 5–6 marks</p> <p>More detailed explanation of one issue to be given two marks.</p> <p>e.g. ‘It was Austrian weakness. It handled the Schleswig Holstein affair very badly. It allowed itself to be led by Prussia. It agreed to help Prussia conquer the Duchies, which was what Bismarck wanted. It then agreed to the Gastein Convention which gave Prussia opportunities to pick a fight with Austria. Austria also allowed itself to be diplomatically isolated. It made other mistakes. It lost a lot of support by rejecting the idea of a conference and referred the issue of the duchies to the German Bund. It then allowed itself be tricked into war.’ All of these errors by Austria show its weaknesses as it was completely outmanoeuvred.’</p> <p>OR</p> <p>‘Prussian strength was the reason. This was military strength. Recent reforms had increased the size of the army and given it new weapons while the Austrians still used rifles that had to be reloaded every time. The Prussians also had vast railways that let them mobilise and move their armies to the front quickly. In the war with Austria in 1866, the Prussian army decisively defeated Austria in the Battle of Sadowa. After this there was no Austrian army left, leaving Prussia dominant. This was the point when Prussia replaced Austria as the dominant power in Germany. Austria was expelled from the German Confederation and Prussia took control of a new North German Confederation.’</p>	4–6	

Question	Answer	Marks
2(c)	<p>Level 2 Identifies AND/OR describes</p> <p>(One mark for each point)</p> <p>e.g. ‘Prussia became dominant because of the military defeat of Austria in 1866.’ ‘Austria allowed itself to be tricked into war by Prussia.’ ‘It was the strength of the Prussian army that led to Prussian dominance.’ ‘Prussian economic strength, helped by its membership of the Zollverein, meant that Prussia was bound to become the dominant state.’ ‘Austria had enormous problems in its empire to sort out, especially because of nationalism, and this made it weaker.’ ‘The reforming of the Prussian army helped Prussia become the strongest power in Germany.’</p>	2–3

Question	Answer	Marks	
3(b)	Why was the Fugitive Slave Act of 1850 controversial?	6	
	Level 4 Explains TWO reasons		6
	Level 3 Explains ONE reason (Four marks for one explanation, five marks for full explanation) e.g. ‘The Fugitive Slave Act was controversial because it meant that people in the North, many of whom were against slavery, suddenly had to enforce slavery. The law said they could not help runaway slaves and the police had to arrest a runaway slave. This was hated by many people in the North. They now had the choice of disobeying the law or going against their own beliefs. Many abolitionists disobeyed the law. This is why it caused so much trouble.’		4–5
	Level 2 Identifies AND / OR describes reasons (One mark for each identification/description) e.g. ‘It led to the kidnapping and conscription of free black people into slavery.’ ‘It made Americans in the North responsible for enforcing slavery.’ ‘It went against the beliefs of abolitionists in the North.’ ‘It led to abolitionists breaking the law.’ ‘Whole communities rebelled against the law and helped runaway slaves.’ ‘It led to northern juries acquitting people who were charged with breaking the law.’ ‘It caused trouble when states like Vermont tried to get round the Act.’ ‘It led to more use of the Underground Railroad.’ ‘Resistance to the Act led to riots and to prisoners being illegally freed from jail.’ ‘There was so much opposition to it in the North that it became impossible to enforce.’		2–3

3(c)	Which achieved more for black Americans, the Civil War or Reconstruction? Explain your answer.	10
	<p>Level 5 Explains with evaluation of ‘which achieved more’ 10</p> <p>As Level 4 plus evaluation.</p>	
	<p>Level 4 Explanation of both sides 7–9</p> <p>A L4 answer will have a minimum of three explanations (2 on one side; 1 on the other.) This will be worth a mark of 7. Fuller explanation of one issue to be given two marks. An answer which only has one explanation on one side of the argument cannot be awarded more than 8.</p>	
	<p>Level 3 One sided explanation OR one explanation of both sides 5–6 marks 4–6</p> <p>More detailed explanation of one issue to be given two marks.</p> <p>e.g. ‘Reconstruction helped black Americans a great deal. This was through the Freedmen’s Bureau. It had branches all over the South and its job was to help the freed slaves adjust to the new situation. In some places, it set up integrated schools and hundreds of hospitals providing free medical help for half a million patients. Thousands of freed people flocked to the schools and received an education for the first time and learned how to read and write. It also represented black Americans in legal cases, getting them fair contracts for jobs and for renting property. This part of Reconstruction helped black Americans enormously.’</p> <p>OR</p> <p>‘I think the Civil War achieved more because it ended slavery and made black Americans into citizens of the USA. At first Lincoln did not want to make war about slavery because this might alienate slave states like Maryland who were on his side. But by issuing the Emancipation Proclamation of 1863 he transformed the war into one about black freedom and as Union forces took control of more of the South, more and more slaves became free. More and more Black Americans were recruited and this became linked to the cause of emancipation. This also made it inevitable that in 1865 slavery was abolished throughout the United States. This was an enormous victory for black Americans and had been achieved by the Civil War.’</p>	

Question	Answer	Marks
3(c)	<p>Level 2 Identifies AND/OR describes</p> <p>(One mark for each point)</p> <p>e.g. ‘Early in the Civil War slaves who escaped across the battle lines were liberated by invading Union armies.’ ‘The slaves who escaped from the South during the Civil War were not helped much. They were simply used as captured enemy property by Union armies.’ ‘Later in the Civil War many black troops were recruited for the Union Army.’ ‘In 1862 Lincoln issued the Emancipation Proclamation which said that slaves were freed in any state that was still rebelling.’ ‘Lincoln’s Emancipation Proclamation of 1862 failed to free a single slave.’ ‘Lincoln’s Final Emancipation Proclamation of 1863 made all slaves free in areas still in rebellion.’ ‘For abolitionists the Civil War was fought to end slavery.’ ‘In 1865 the Thirteenth Amendment abolished slavery.’ ‘In 1865 President Johnson in his Reconstruction allowed white people to reclaim all land given to black Americans during the Civil War.’ ‘In 1865 and 1866 the Black Codes were passed throughout the South to stop black people voting or marrying white people.’</p> <hr/> <p>‘The Civil Rights Act of 1866 made black Americans citizens.’ ‘The 1867 Reconstruction Act made southern states draw up new constitutions giving black Americans the vote.’ ‘The 15th Amendment of 1869 banned states from denying people the vote because of their colour.’ ‘Many southern states found loopholes to enable them to ignore the 15th Amendment.’ ‘The Second Civil Rights Act of 1875 gave black Americans many equal rights.’ ‘The Freedmen’s Bureau gave ex-slaves much educational and medical help.’ ‘The Freedmen’s Bureau had little understanding of black culture and patronised black Americans.’ ‘Thousands of black Americans were resettled on homesteads under the Southern Homestead Act.’ ‘Many black Americans were exploited under sharecropping schemes.’ ‘A new generation of black politicians emerged in the South as Congressmen and on city councils.’ ‘The emergence of the Ku Klux Klan which terrorised black Americans happened under Reconstruction.’ ‘Reconstruction ended in 1877, troops were withdrawn from the South and black people suffered decades of terror and discrimination.’</p>	2–3

4(b)	Why did Austria send Serbia an ultimatum on 23 July 1914?	6	
	Level 4 Explains TWO reasons		6
	Level 3 Explains ONE reason (Four marks for one explanation, five marks for full explanation) e.g. ‘In July 1914 the Archduke Franz Ferdinand of Austria was assassinated by Serb nationalists. Austria decided that it had to deal with Serbia once and for all because it was supporting nationalist groups like the Black Hand. It sent the ultimatum with terms that it knew Serbia could not agree to. This would force Serbia into a quick war, which Austria thought it would easily win. The problem of Serbia would thus be solved. It did not want the war to spread and hoped the war would be over before other European powers could get involved. It depended on Germany to keep the other powers out of it. So, the ultimatum was sent so a quick war could help Austria deal with Serbia.’		4–5
	Level 2 Identifies AND / OR describes reasons (One mark for each identification/description) e.g. ‘It did this because of the assassination of Archduke Franz Ferdinand.’ ‘It did this because a Serbian nationalist had assassinated the Austrian Archduke.’ ‘Austria wanted to force a quick war with Serbia and win before anyone else could react.’ ‘It did this to make the Serbs accept an Austrian enquiry into the assassination.’ ‘It did this to make Serbia act against terrorist organisations like the Black Hand.’ ‘It sent the ultimatum because it regarded terrorist groups as a threat to the unity of the Austrian Empire.’ ‘It did this to stop Serbia from helping terrorist groups.’ ‘It did this because Germany had promised to support Austria in the ‘blank cheque’.’ ‘It did this because it was worried about nationalist groups threatening the Austrian Empire.’		2–3

4(c)	<p>'Britain went to war in 1914 to honour its promise to protect Belgium.' How far do you agree with this statement? Explain your answer.</p>	10

	<p>Level 3 One sided explanation OR one explanation of both sides 5–6 marks</p> <p>More detailed explanation of one issue to be given two marks.</p> <p>e.g. 'Britain went to war because of the threat of an increasingly powerful Germany. Britain's position in the world, and its Empire, depended on the British navy controlling the seas. This control was being threatened by Germany. For some years, there had been a naval race with Germany, with the growing German navy threatening what was most important to Britain, its navy and its Empire. In the late 1890s, Germany began building up its navy, especially building large powerful battleships. In 1908, the Germans passed a naval bill which increased the number of battleships being built this year. Although Britain responded by building more battleships, the German policy was a real threat to Britain's control of the seas.'</p> <p>OR</p> <p>e.g. 'Britain went to war because in the Treaty of London of 1839 it had promised to defend Belgium if it was attacked. Britain therefore had a moral duty to help Belgium. At the time, the British government gave the German attack on Belgium as the reason why it was going to war. Before the German attack on Belgium, British public opinion had been divided over whether Britain should get involved in war. The German invasion united everyone in the view that Britain should go to Belgium's help. This made it easier for the British Government to declare war on Germany. It was also important that Germany did not take Belgium over because it could launch an invasion of Britain from there.'</p>	4–6

5(b)	Why did the Treaty of Versailles have a damaging political impact on Germany up to 1923?	6

	<p>Level 3 Explains ONE reason 4–5</p> <p>(Four marks for one explanation, five marks for full explanation)</p> <p>e.g. ‘The Treaty of Versailles had a damaging political impact in Germany because its terms were seen as humiliating by the Germans. It was criticised by right-wing politicians and there were attempts to overthrow the government such as the Kapp Putsch. The Treaty had seriously weakened the German government.’</p>

5(c)	Who was happier with the terms of the Treaty of Versailles, Clemenceau or Wilson? Explain your answer.	10

	<p>Level 4 Explanation of both sides 7–9</p> <p>A L4 answer will have a minimum of three explanations (2 on one side; 1 on the other.) This will be worth a mark of 7. 	<p>Level 3 One sided explanation OR one explanation of both sides 5–6 marks 4–6</p> <p>More detailed explanation of one issue to be given two marks.</p> <p>e.g. ‘Wilson’s feelings about the Treaty were mixed. Wilson had wanted to use the peace conference to make sure that there would never be another major war. This was why his main aim was to get the League of Nations set up. He was very happy to achieve this, although very disappointed that the USA then decided not to join it. He was also relieved that Germany was not punished as much as France wanted. This reduced the chances of Germany wanting revenge. Another aim of Wilson’s was self-determination. He was quite happy with what he achieved here because of the setting up of Poland, Czechoslovakia and Yugoslavia as independent states. However, he was disappointed that Austria was not allowed to be united with Germany.’</p> <p>OR</p> <p>e.g. ‘Clemenceau’s main aim in the negotiations was to protect France from Germany and to make sure it could never threaten France again. This made France’s eastern border rather safer than it had been before. He was also pleased that Germany was much weaker in terms of its army. Its loss of some important areas also meant it was not as strong economically. However, Germany had kept the Rhineland and this would help it recover economically. 	Level 4 Explains TWO reasons		6
	Level 3 Explains ONE reason (Four marks for one explanation, five marks for full explanation) e.g. ‘Haile Selassie was not happy with the way the League dealt with the Italian invasion because of the attitudes of Britain and France. They were the two most powerful nations in the League and what they did was what mattered. Unfortunately for Abyssinia, they were not prepared to take any serious action against Italy. Everyone could see that dealing with events across the other side of the world was always going to be very difficult. It certainly could not send armed forces to the Far East where Japan was the most powerful country. Economic sanctions would have hurt European countries a lot and colonies like Singapore were vulnerable to Japanese attack. There was also a strong argument that Japan was bringing law and order to a lawless part of the world. Although the League did act very slowly and ended up doing little, it is difficult to see what it could have done. Because of this, the League’s failure did not finish the League off. The Soviet Union had suffered such terrible losses in the war with 20 million people killed and cities and industries destroyed that his greatest fear was another future attack by a recovered and strong Germany. This is why he did not want Germany to recover economically. He was also suspicious of the USA and western Europe. These suspicions went back to western interference in the Russian Civil War. He saw the Soviet Union as an isolated communist country faced with hostile capitalist powers. It was for this reason that he wanted a ring of communist countries in eastern Europe – to protect the Soviet Union from attack. This was a purely defensive policy.’ OR e.g. ‘Stalin’s policy can be seen as aggressive. He did not keep to the agreements made at Yalta and Potsdam. He managed to get communist governments in Poland and Romania and by 1948 had communist regimes across eastern Europe. He was also interfering in countries through their local communist party. He hoped to bring down the governments in western Europe and impose communism across the continent. COMINFORM was set up to control and direct communist parties across all Europe. His blockade of Berlin was another aggressive move, designed to get the West out of Berlin. It is not surprising the West saw Stalin as a threat.’	4–6

The Allies also developed their use of tanks and creeping barrages that would be so effective in 1918. This was led by Goebbels who used modern methods and put across popular ideas. The use of methods such as planes to get Hitler all over the country, radio and film made the Nazis look like a modern party and brought the Nazi message to millions of people. Nazi posters were everywhere and the huge rallies the Nazis held were popular. 	<p>Level 3 One sided explanation OR one explanation of both sides 5–6 marks</p> <p>More detailed explanation of one issue to be given two marks.</p> <p>e.g. ‘I think the Night of the Long Knives was more important. This is because despite everything Hitler had achieved by 1934, he was still not secure. To be secure he needed to win the support of the army but the SA was in danger of setting itself up as a rival to the army. He was also suspicious of sections of his supporters, such as the SA. The Night of the Long Knives dealt with both of these problems. The SA had been very important in helping Hitler gain power but it was also a threat. It was 4 million strong and under the control of Rohm who wanted Hitler to introduce more radical socialist policies. Rohm was therefore a rival. The Night of the Long Knives saw the leaders of the SA arrested and shot. This meant Hitler had got rid of a rival, he was now in full control of the Nazi movement. He had also shown the army that he supported them and not the SA. This helped Hitler win the support of the army, which made him stronger. OR e.g. ‘The Enabling Act was important to Hitler because it allowed him to pass laws without going through the Reichstag. This basically meant that he could do what he wanted. He was now a dictator. The Enabling Act meant he could deal with his opponents. He banned all political parties except the Nazi Party. This meant that he could carry on holding elections because the only candidates were Nazis. He also banned Trade Unions. The Act allowed him to sweep all opposition away.’</p>	4–6

	Level 4 Explains TWO reasons		6

14(b)	Why were Stalin's reforms important for Soviet women?	6	
	Level 4 Explains TWO reasons		6
	Level 3 Explains ONE reason (Four marks for one explanation, five marks for full explanation) e.g. 'Stalin's reforms were important for women because they made them equal as far as jobs were concerned. Stalin thought that the economic changes he wanted would not be possible without the work of women. Many more women were employed in jobs and by 1935 42% of all industrial workers were women. They became very important and the Second Five-Year Plan would have struggled without their work. Some women also became managers, although there was some resistance to this from men. By 1939 79% of all doctors were women. Stalin's reforms revolutionised the lives of many women.'		4–5

Heavy industry was developed and production of coal, steel and oil were increased enormously. By 1940, Russia was producing 20% of everything manufactured in the world. Russia was modernised in the sense that it was now a strong military country. Its army was well equipped and this led to its strength during the Second World War. It was also a modern country in the sense that there was some increase in the standard of living, especially for managers. It also worked in a more modern way, with new chemicals being used in farming and new machines in factories. Great dams were built and a metro in Moscow.’</p> <p>OR</p> <p>e.g. ‘Although Soviet industry was expanded in some ways, the Soviet Union was not modernised. 	Level 4 Explains TWO reasons		6
	Level 3 Explains ONE reason (Four marks for one explanation, five marks for full explanation) e.g. ‘Farmers did not benefit from the economic boom because of over production. American farming, with its new machinery such as the combine harvester and new fertilisers, was the most efficient in the world. More land was being farmed. The Second New Deal did. For example, the Social Security Act proposed a state pension for everyone over 65 and help for mothers with dependent children. Also, the Resettlement Administration was set up to help farmers who had been evicted to move into new homes. These ideas were a major change for America which had always believed that individuals should support themselves and their families.</p> <p>OR</p> <p>e.g. ‘The First New Deal was far more important. It reduced unemployment. The PWA, for example, provided jobs by starting major construction projects like dams, bridges and hospitals, while the National Industrial Recovery Act led to an improvement in working conditions and increased wages. It helped industry get going again. Most important of all, Roosevelt managed to restore confidence in the banking system. 17(b)	Why did Mao introduce the first Five Year Plan?	6	
	Level 4 Explains TWO reasons		6
	Level 3 Explains ONE reason (Four marks for one explanation, five marks for full explanation) e.g. ‘The communists took over China in 1949. At that time China was in a terrible state. Much of its transport system and industry had been destroyed in the Civil War. Mao realised that steel production and coal production had to be increased. He decided that the socialist transformation of private industry under the central direction of the government was needed. Nothing else would bring the changes that were needed quickly enough.’		4–5

	<p>Level 3 One sided explanation OR one explanation of both sides 5–6 marks</p> <p>More detailed explanation of one issue to be given two marks.</p> <p>e.g. 'I think that Mao had achieved his aims. The Five Year Plan had been a tremendous success. The government had taken over control of the economy and targets were surpassed in the production of steel, coal and iron. China had a good railway system which meant that the necessary raw materials for China's heavy industries could be moved around as could the goods that were produced. Crucial to this was Mao's success in winning over the support of the Chinese people who worked hard to be more productive. He had also got rid of the landlords, the traditional enemies of the communists, and introduced the commune system into farming. Just as successful were the social reforms. He had introduced free health care and illness rates were dropping. He had also improved education and the literacy rate had gone up to 90%. He needed a literate workforce to help the industrial development.'</p> <p>OR</p> <p>'Mao had not really achieved his aims. The Great Leap Forward was a failure. He had hoped that he could help industrial development through backyard production in communes. This did not work. Targets were not met and much of the iron produced was sub-standard. It also took workers away from the fields and food was not being harvested. This led to a dreadful famine where millions died. By 1960 it was clear the Great Leap Forward was a terrible mistake and it was abandoned. Mao resigned as head of state and communes were abandoned.'</p>	4–6

	Level 3 Explains ONE reason 4–5 (Four marks for one explanation, five marks for full explanation) e.g. ‘Mao had hoped that the Hundred Flowers campaign would open a debate that would allow the Chinese people to reflect and have a debate about how the government could be run better. The Cultural Revolution was his attempt to get young people to save the revolution and force the changes he thought were necessary but were being lost.'</p> <p>OR</p> <p>'I agree that it was a very surprising thing to do. The Atlantic Charter stated that the war was being fought to save freedom and democracy. This gave black South Africans great hopes for freedom and democracy in South Africa. As a result, the ANC became more active and in 1943 published claims for equality of all races. In 1944, it held large demonstrations against the pass laws. During the war the colour bar and the enforcement of the pass laws had been relaxed because of wartime pressures and many black South Africans surged into the cities. This all worried white South Africans and explains why they voted for the Nationalists who promised greater apartheid if they won.'</p> <p>OR</p> <p>e.g. 'I disagree. The National Party won because of developments after the war. There were more strikes and demonstrations by black South Africans, which made white South Africans support apartheid.
