MARK SCHEME

Maximum Mark: 60

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the February/March 2022 series for most Cambridge IGCSE™, Cambridge International A and AS Level components and some Cambridge O Level components.

This document consists of **92** printed pages.

PUBLISHED**Generic Marking Principles**

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently, e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

GENERAL INSTRUCTIONS**Applying the Mark Scheme**

- When marking a response, the overall criteria to be considered should be – ‘How good is this response to this question?’
- The ‘Level Descriptor’ should be used to decide the Level into which the quality of the answer fits.
- Exhaustive lists of possible facts are not given in the mark scheme, as there is often a choice of factual knowledge that candidates may use.
- **WHERE EXAMPLES OF RESPONSES ARE GIVEN, THESE ARE NOT PRESCRIPTIVE, BUT ARE INTENDED AS A GUIDE.** It is not possible to cover every possible type of response within a levels of response mark scheme and examiners are expected to use their professional judgement at all times in ensuring that responses are placed in the correct levels and given an appropriate mark within that level.
- Marking must be positive. Marks must not be deducted for inaccurate or irrelevant parts of answers. In itself, poor use of historical terminology, spelling, grammar or handwriting does not affect the mark. The overall quality of the answer to the question should be judged.
- If a candidate reaches a particular level, s/he must be rewarded with a mark within that level. It is not necessary to work through the levels.
- The full range of marks should be used. Do not be afraid to award full marks or no marks. Failure to do this will seriously affect the distribution of marks. Be prepared to reward candidates who show any level of understanding. The mark scheme starts from basic acceptable response. Where a band of marks is indicated for a level, these marks should be used with reference to the development of the answer within that level.

1(b)	Why did the ‘June Days’ take place?	6	
	Level 4 Explains TWO reasons		6
	Level 3 Explains ONE reason (Four marks for one explanation, five marks for full explanation) e.g. ‘They happened because it was announced that the National Workshops were going to be closed. This caused great anger among the working classes because the workshops had provided work for many people who badly needed it. This gave them a small income which was essential. The plan was to dismiss the workers or send them back to the provinces.’		4–5
	Level 2 Identifies AND / OR describes reasons (One mark for each identification/description) e.g. ‘This was because the National Workshops were closed.’ ‘They took place because of the conservative government was very unpopular.’ ‘They happened because the workers thought that the Second Republic was under threat.’ ‘They took place because this was a time of unemployment and great distress.’ ‘Those in the workshops were told they would have to return to the provinces.’ ‘The workers were worried by what Cavaignac was planning to do with the army.’		2–3

1(c)	<p>The European revolutions of 1848–49 achieved very little.’ How far do you agree with this statement? Explain your answer.</p> <p>Level 5 Explains with evaluation of ‘how far’</p> <p>As Level 4 plus evaluation.</p> <p>Level 4 Explanation of both sides</p> <p>A L4 answer will have a minimum of three explanations (2 on one side; 1 on the other.) This will be worth a mark of 7. Fuller explanation of one issue to be given two marks. An answer which only has one explanation on one side of the argument cannot be awarded more than 8.</p> <p>Level 3 One sided explanation OR one explanation of both sides 5 to 6 marks</p> <p>More detailed explanation of one issue to be given two marks.</p> <p>e.g. ‘The revolutions did not achieve much. In many places new liberal constitutions were promised but all of this was swept away by repression and the return of absolute monarchies in many places such as Germany, Austria and Italy. This was often supported by the middle classes who were terrified by the thought of violent revolution. In France the reaction was especially strong and led to a coup by Louis Napoleon and the return of an empire, while in Prussia Frederick William remained in power.’</p> <p>OR</p> <p>e.g. ‘The revolutions did achieve some things that were important. In some places the reforms were not all swept away and survived. In France the move to give all men the vote was kept, while in Prussia the new constitution was kept. This included an elected assembly. It is also important to remember that the revolutions achieved something in the long term. The ideas of nationalism that were stirred up in Germany and Italy did not go away. In Germany the setting up of the Frankfurt Parliament and its decision to form a National Assembly started off ideas that would lead to the unification of Germany a few decades later.’</p>	<p>10</p> <p>10</p> <p>7–9</p> <p>4–6</p>

	Level 4 Explains TWO reasons		6
	Level 3 Explains ONE reason (Four marks for one explanation, five marks for full explanation)		4–5
	e.g. ‘The issue of Spanish Succession was important because it gave Bismarck the opportunity of war with France. 	<p>Level 3 One sided explanation OR one explanation of both sides 5 to 6 marks 4–6</p> <p>More detailed explanation of one issue to be given two marks.</p> <p>e.g. 'Bismarck did plan the war with Austria because he wanted to destroy Austrian influence in Germany, make Prussia the leading state and eventually unify Germany. He blew up the dispute with Austria over the running of Schleswig-Holstein to provoke war with Austria. He made an alliance with Italy, which shows that he was getting ready for war. When Austria mobilised and took the dispute to the German Diet, Bismarck declared war on Austria and invaded.'</p> <p>OR</p> <p>'Bismarck did not plan the war with Austria. This was a claim he made much later. When he allied with Austria in the war with Denmark this made sense. It helped Prussia expand and was not part of a long term-plan to go to war with Austria. Bismarck could not have known that Austria would do anything in Schleswig-Holstein that could be used to cause a war. He merely responded to events as they happened.'</p>

It was all part of his plan to unify Germany under Prussian leadership.’ ‘Bismarck wanted war with Austria because it was Prussia’s great rival in Germany.’ ‘Bismarck had a promise from Napoleon III to stay neutral if there was a war with Austria.’ ‘Bismarck planned war at that moment because the Prussian army was much stronger than Austria’s.’ ‘He sent Prussian troops into Holstein to provoke Austria into declaring war.’ ‘Bismarck could not have known that Austria was going to cause a dispute over Schleswig-Holstein.’ ‘Bismarck simply reacted to events like the dispute over Schleswig-Holstein as they happened.’</p>	2–3

3(b)	Why were carpetbaggers unpopular in the South during the Reconstruction period?	6	
	Level 4 Explains TWO reasons		6
	Level 3 Explains ONE reason (Four marks for one explanation, five marks for full explanation) e.g. ‘Carpetbaggers were unpopular in the South because they were trying to exploit the situation there. They would buy land and make a profit from it, often employing Southerners to do the labouring.’		4–5

	<p>Level 3 One sided explanation OR one explanation of both sides 5 to 6 marks</p> <p>More detailed explanation of one issue to be given two marks.</p> <p>e.g. ‘The Kansas-Nebraska Act was very important as a cause of the Civil War. It created two new territories, Kansas and Nebraska and stated that the people in each would vote on whether slavery would be permitted. People flooded into Kansas trying to create a majority for their side over slavery. This led to a lot of violence by the two sides and was called ‘Bleeding Kansas’. It increased tensions between the two sides and was in a sense the beginning of the Civil War.’</p> <p>OR</p> <p>‘Slavery was a much more important cause. In fact, the Kansas-Nebraska Act was only passed, and was only a problem, because of slavery. Slavery was regarded as essential to the economy of the South which depended on growing sugar, cotton and tobacco through slave labour. Many people in the North hated slavery because many of the slaves were mistreated and they had no rights. Some of them wanted to abolish the practice. The people in the South saw this as an attack on their way of life and their economy.’</p>	4–6

	Level 4 Explains TWO reasons		6
	Level 3 Explains ONE reason (Four marks for one explanation, five marks for full explanation) e.g. ‘This crisis was important because it damaged Austria’s relations with Serbia and Russia, and this helped lead to the First World War. When Austria annexed Bosnia and Herzegovina, Serbia mobilised its army. Although, in the end, Serbia and Russia did not do anything because Russia was not ready to support Serbia. This is when the crisis came close to endangering international peace.’</p> <p>OR</p> <p>e.g. ‘The second crisis threatened international peace much more. This is because Germany, in response to France increasing its influence in Morocco, sent a gunboat. In reply, Lloyd George threatened that Britain was ready to stand up for its rights. 	Level 4 Explains TWO reasons		6
	Level 3 Explains ONE reason (Four marks for one explanation, five marks for full explanation) e.g. ‘The Depression was very important for the League because the economies of countries around the world were suffering and unemployment was high. The League had let everyone down.'</p> <p>OR</p> <p>e.g. 'The response of the League was not at all surprising. 6(b)	Why was the Treaty of Versailles important for Hitler’s foreign policy?	6	
	Level 4 Explains TWO reasons		6
	Level 3 Explains ONE reason (Four marks for one explanation, five marks for full explanation) e.g. ‘The Treaty of Versailles was very important for Hitler. The Treaty had weakened Germany and Hitler wanted to make Germany great again. He had promised to undo the Treaty. Under Versailles, Anschluss with Austria was banned. One key part of Hitler’s foreign policy was to undo this. He believed that Austrians and Germans were the same people. They were all German speakers and should be united. It was part of his policy to create a Greater Germany. He tried to unify them in 1934 but Mussolini stopped him. However, in 1938 Hitler sent the German army into Austria and achieved Anschluss.’		4–5

The battle was important because it ended the Race to the Sea and meant that the war on the Western Front would become static for years. Both sides had dug in and would remain like that.'</p> <p>OR</p> <p>e.g. 'I think the Battle of the Marne was more important. The Allies forced the Germans to retreat. The mass production methods using the assembly line meant that large numbers of cars could be produced at low prices. Many people in the USA could afford one. Hire purchase meant that people did not have to have all the money to buy goods, they could spread the cost over years. This also encouraged them to spend more.
